## **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

### ***Allowable Subject Matter***

1. The following is a statement of reasons for allowance: In view of applicant's arguments with respect to the claims amendment filed 21 August 2006, all previous rejections are withdrawn. Accordingly, claims 51-64 are allowed.
2. The closest prior art of record fails to teach or reasonably suggest each and every limitation of the instant invention. Specifically, Vaartstra and Smith, Jr. fail to teach the claimed substrate processing apparatus having, *inter alia*, a main heater, a solvent heater, a vapor heater, and means for controlling the heaters based on temperature measured sensed by a temperature sensor while monitoring the overheat of the vapor heater by an overheat monitoring sensor, which is disclosed as an essential element of claimed invention, as described in claim 51 and argued by applicant.
3. For at least the foregoing reasons, claims 51-65 are believed to recite patentable subject matter.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph L. Perrin, Ph.D. whose telephone number is
